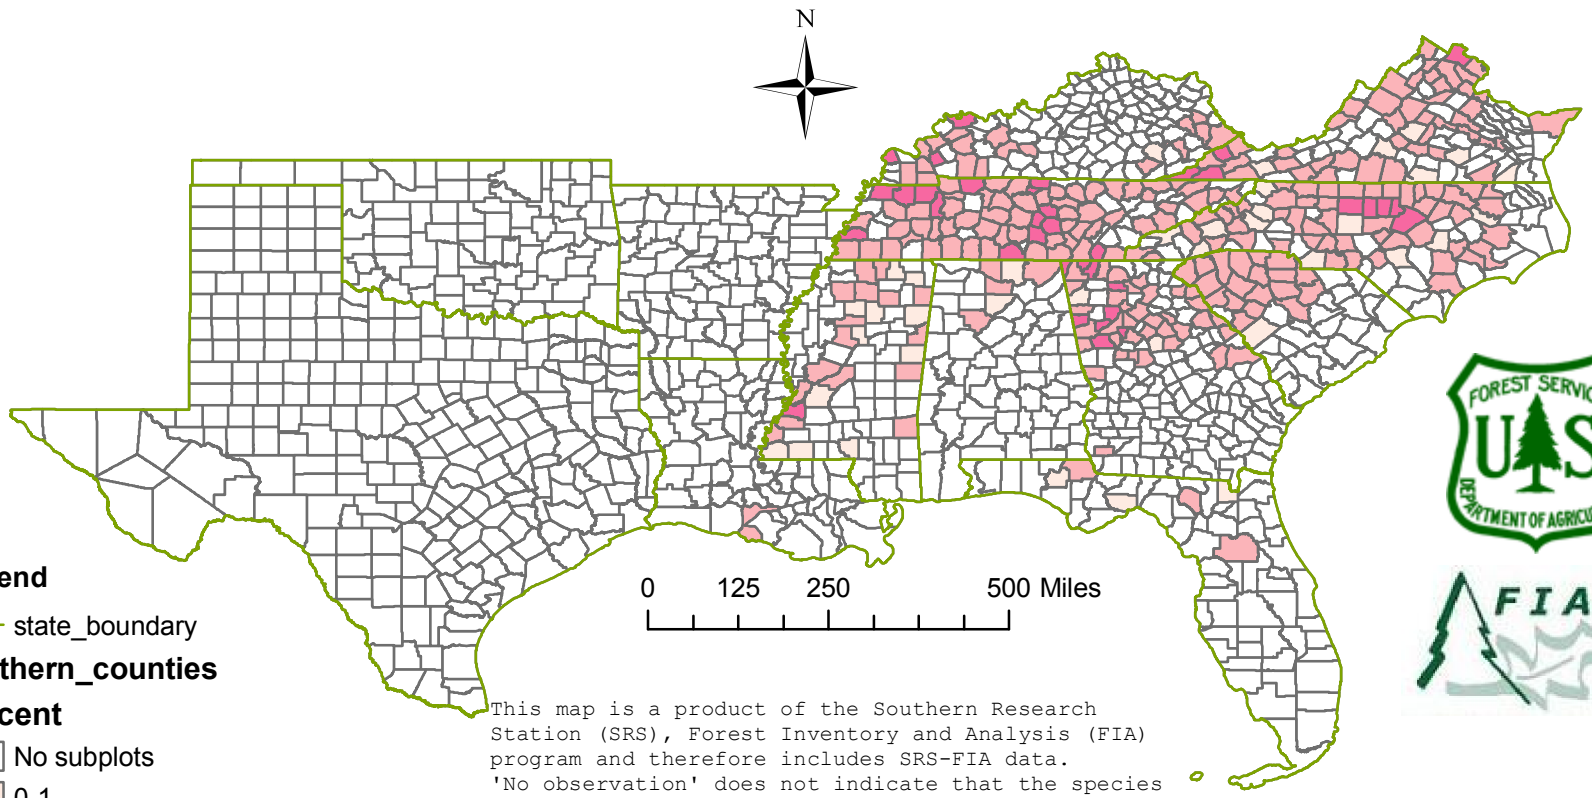
*Microstegium viminium*

Nepalese browntop

5/ 21/ 2010



This map is a product of the Southern Research Station (SRS), Forest Inventory and Analysis (FIA) program and therefore includes SRS-FIA data.
'No observation' does not indicate that the species is absent from a particular county, only that the species was not found on SRS-FIA field sampling sites within that county at the time the sample was taken.
